MOR/RYPDE® SRE 4000 SUSPENSION SYSTEM

"IT'S ALL ABOUT THE TRAVEL"

When it comes to suspension performance, it's all about suspension travel. Increased travel means smoother towing, improved towability and better protection from damaging road shock. The Mor/ryde SRE 4000 provides 4" of suspension travel.* This gives you the smoothness you need with today's rough roads as well as the protection of your trailer from damaging road shock.

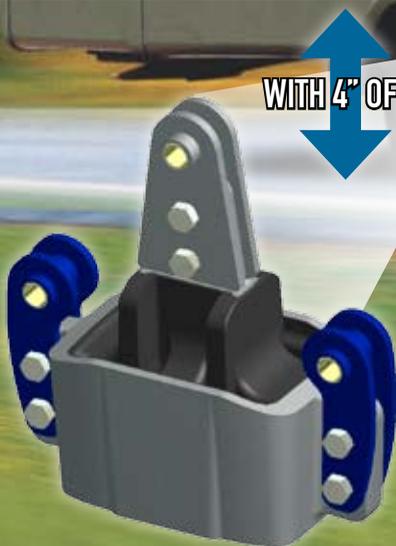

The SRE 4000 also provides added strength as each SRE 4000 includes the XFactor Performance Crossmember. The XFactor is designed to provide added lateral support resulting in greatly reduced frame stress. Your trailer is now smoother and stronger than ever with the SRE 4000.

The SRE 4000 with the XFactor crossmember bolts into the existing frame hanger. Installation is simple and straightforward and can be done by a dealer, service center or do-it-yourselfer.

- ▶ PROVIDES SMOOTHER TOWING THAN CONVENTIONAL LEAF SPRINGS
- ▶ PROTECTS YOUR TRAILER FROM DAMAGING ROAD SHOCK
- ▶ SMOOTHNESS PLUS STRENGTH WITH THE XFACTOR CROSSMEMBER
- ▶ EASY BOLT-ON INSTALLATION!

**Based on 2g acceleration.*

WITH 4" OF SUSPENSION TRAVEL!

XFactor
